- School of Physician Assistant Studies
 Pharmacology lectures in CI &
 Anticoagulation therapy
- School of Optometry Pharmacology of ophthalmic antibiotics

CONTACT INFORMATION

WHO AM I?

I am a clinical pharmacist by training who currently works as an academic. I have a vested interest in the role of digital health in the pharmacy space. My work has spanned multiple presentations nationally and internationally, books and book chapters, and peer-reviewed publications. I serve as an advisor and consultant for startups and pharma regarding the role of digital health in relationship to pharmacy topic as a content expert.

WHAT EXPERTISE I BRING

I started in the mHealth space back in 2011 when I served as a writer/editor for iMedicalApps, where I reviewed +500 mobile medical apps. Our team created multiple publications that has influenced how mobile apps are reviewed to the present. I then started reviewing medication adherence devices, wearables, and associated digital health services and products, with an emphasis on pharmacy related industries. From this, I have built up a considerable contact list of startups in the digital health space, and became a content expert through experience. Since then, I have worked with other groups on creating standards for mobile health apps and digital therapeutics, and particpated in numerous stake holders meetings nationally for future developments.

WHAT I AM AVAILABLE FOR

SPEAKING & WRITING OPPURTUNITIES

- Continuing education, guest speaking and Keynote talks
- Guest blogging pieces for websites or media related to articles on disease treatment, medication use, or Digital health expertise viewpoints or related pieces.
- Podcasting or Video appearances related to areas of expertise.

ADVISORIAL OR CONSULTANT ROLES

- Pharmaceutical companies with a need for a pharmacy specialist with high knowledge in digital health and related expertise.
- Start-ups in the digital health space looking for pharmacy input in relationship to areas of expertise.
- I am presently not looking for any role that includes opening a pharmacy, requires regulatory or legal knowledge, or serving for a start-up focused on medication adherence at this time.

SPEAKING EXPERIENCE

I have given over 20 national and international presentations related to digital health, pharmacy practice topics, and disease and drug treatment. Audience sizes have ranged from dozens to over a thousand. I am comfortable presenting alone, with others, or on panels and fireside chats, webinars, and recordings. I would describe my presentation style as engaging and pursue the concept of an entertainer on the stage. Please see my CV for full details.

SELECTED PRESENTATIONS

- "Research in mHealth: Finding the Right Balance" Medicine 2.0, Blackfriars, London, England.
- "What makes a great pharmacist." Kyoto Pharmaceutical University. Kyoto, Japan.
- "What should the infrastructure look like to get digital therapeutics to patients?" DTx East. Boston, MA.
- "Mobile Apps & the Future of Digital Health: The Future Is Now." AACP Annual Meeting. Chicago, IL.
- "How the Patient Home Will Be a Digital Biomarker Marketplace" Digital Biomarkers in Pharma R&D: Technical Challenges and Strategies for Advancing Personalized Medicine Workshop. Bio-IT World Conference & Expo.
- "From Pillboxes to Smart Pills: How Digital Health Is Changing Medication Adherence." ASHP 53rd Midyear Clinical Meeting, Anaheim, CA.
- "Integration of Mobile Technology into Pharmacy Practice: What does mHealth mean for Pharmacy?" ASHP 49th Midyear Clinical Meeting, Anaheim, CA.
- "Geriatric Care in the Digital Age: The Role of Smart Devices and Tools for Patient Care." American Society of Consultant Pharmacists. BCPG Educational Series.

WRITING EXPERIENCE

I have published over 20 peer-reviewed publications, primarily on technology and pharmacy practice. My contributions have also included solicited publications for trade magazines and journals on digital health, and I serve as a contributor for several pharmacy media outlets. In total, I have over a 100+ online media articles published, ranging from clinical expertise insights to digital health opinion pieces. I also maintain my own blog, at TheDigitalApothecary.com which has on average 40K visitors a year. Lastly, I also contribute to podcasts, and co-host the FutureDose.tech podcast on technology and pharmacy, and have a YouTube series on digital health.
